

# Donate plasma, help St. Brigit

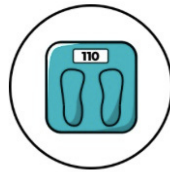

## Who can donate plasma?

Be in  
good health

Be at least  
18 years old

Weigh at least  
110 pounds

Valid ID and  
permanent  
address

No tattoos or  
piercings within  
the last four  
months

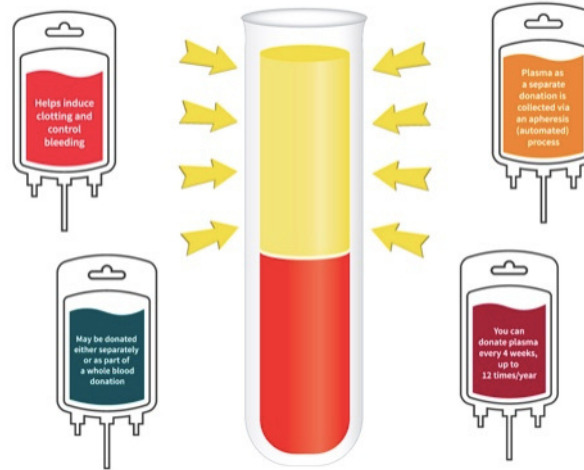

## Why donate plasma?

Your donation helps patients who need plasma-derived biotherapies to improve or save their lives. Those in need are suffering from life-threatening conditions such as hemophilia, immune deficiencies, and other blood disorders. Plasma is the essential ingredient in many medications and treatments.

## What is plasma?

### Plasma

Plasma is the liquid portion of blood that suspends red blood cells, platelets, and other cells within our bloodstream.

By volume, red blood cells constitute about 45% of whole blood, plasma about 55%, white blood cells and platelets less than 1%.

1,200 x 1,115

## How do I make money donating plasma?

You can make money  
and save lives at the same time.  
Plasma donation centers pay for donating!  
The amount you make is generous –  
usually between \$25 and \$100 an hour,  
depending on the donation center.

## How do I help St. Brigit

After you sign up and donate plasma you  
can give all or some of your  
compensation to St. Brigit. You will be  
saving lives and saving St. Brigit Church.  
It's a WIN/WIN!
